

Bishop GmbH – Conversion of 1 inch into 1/2 inch seat rail pitch

Why the Bishop conversion idea of the standard 1 inch seat rail pitch?

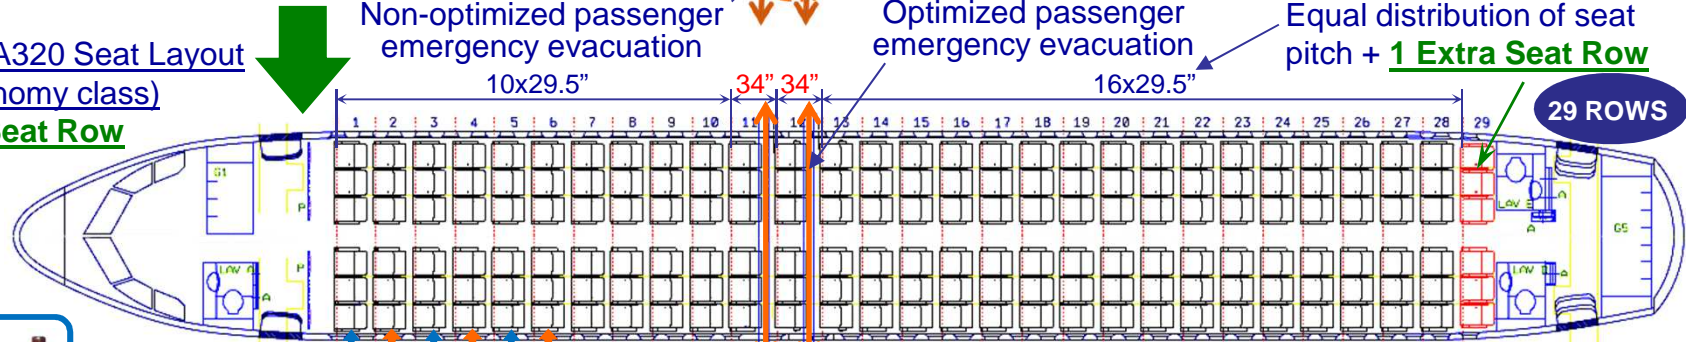

Answer: Attach your seat rows at the desired position, enhance the passenger comfort and optimize your **Net Revenue**

No flexibility to equally distribute the pitch between the seat rows

Standard A320 Seat Layout
(100% economy class)

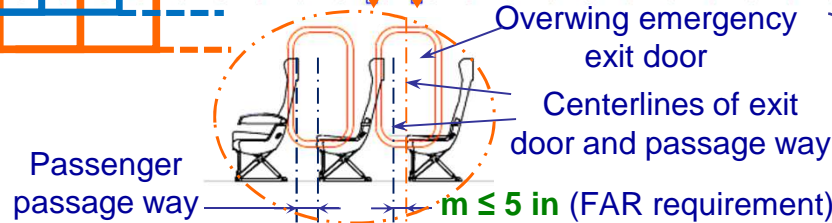

Optimized A320 Seat Layout
(100% economy class)
+ 1 Extra Seat Row

Fitting Set 1

Fitting Set 2

Fine-tune the position of seat rows to center the passage way to the exit door width ($m = 0$)
More **comfort** for passengers to access the emergency door
